

Faisalabad Garment City Project

Faisalabad is the biggest textile centres of the country. Annual textile exports from Faisalabad are 5 billion dollars, and the city has complete range of textile manufacturing from cotton ginning to garments manufacturing. The range includes:

- 30 Ginning Factories
- 82 Textile Spinning Mills
- 200,000 Power Looms
- 150 Sizing Units
- 500 Dyeing & Printing Units
- 1,200 Hosiery Knitting Units
- 500 Stitching Units
- 70 Export Houses
- Biggest Yarn Market of Asia

Faisalabad's share is 60% in total textile exports of the country. Prior to establishment of infrastructure facilities like Dry Port, International Airport, Cargo Train Services and NLC. The exports from the city were only 1 billion Dollars. With the establishment of these facilities the exports have jumped upto 5 billion dollars per annum. Faisalabad has potential to double the export figure.

Faisalabad Garment City Company was registered with the Security Exchange Commission of Pakistan under Companies Ordinance 1984 on 8th May, 2006. Faisalabad Garment City Project is under construction at the area of 40 Acres in Value Addition City, 1.5 K.M Khurrianwala-Sahianwala Road. One building of International Standards of 6 floors (224213 Sft) with all external infrastructure development is near to be completed in December 2008.

The purpose of the project is to reduce the capital outlay of the investors and provide fully complaint state of the art facilities at prevalent market rate. It will attract foreign investors who would prefer to rent state of the art manufacturing factory space rather than invest their capital in land, utilities and construction, to provide facilities and necessary infrastructure to the textile sector with a view to enhance the export of value added garments, made ups and accessories to international markets. A potential foreign investor/entrepreneur can move in very quickly and start manufacturing. It will increase the proportion of value added products in textile exports; maximize the value of Pakistan's cotton resources. It can attract foreign investment. It will generate employment opportunities, especially for women. It will be economical and commercially viable with provided facilities. The project will also result in higher per capita productivity and reduced wastage because of the in-house training and laboratory testing facilities provided by the Project, Technical know how and latest technologies, Entrepreneurial development programs, Quality awareness programs etc.

Sh. Mukhtar Ahmed, Chairman/CEO and Board of Directors of Faisalabad Garment City Company have expressed desire to welcome and support the Project to the foreign investors, with the request to establish their factories in the Garment City Project. Furthermore there is special incentive for the foreign investors.

Faisalabad Garment City Company, Ministry of Textile Industry, Islamabad will feel honour to attend any query regarding this Project.
